Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrink, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant. "Gets-It" loosens and falls right off.

There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting.

"Gets-It" is sold everywhere, 50¢ a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Stanford and recommended as the world's best corn remedy by The Lincoln Pharmacy and The Penny Drug Store.

THE LATEST WAR NEWS

British troops have captured another mile of German trenches southeast of Messines, together with seven field guns and prisoners, according to the official report from British headquarters. The Italians have begun an offensive in the region south-east of Trent and have captured two important points of vantage from the Austrians issued today. Monte Ortigara, east of Cima Udice, and the Agnello pass both were taken, in addition to more than 500 prisoners.

Following the example of the United States, Great Britain has replied to the Russian Government's request for a statement of war aims. The reply concurs in Russia's purpose not to dominate other people or take from them their national patrimony or forcibly occupy foreign territory. The defense of the existence of countries, the enforcement of respect for international agreement and the liberating of populations oppressed by alien tyranny is adhered to in the note. The note says Great Britain joins with Russia in acceptance and approval of the principles laid down by President Wilson in his historic message to Congress.

Dr. Carl L. Wheeler has returned from New York, where he attended the convention of the American Medical Association. He says that the big patriotic meeting of the association, which was held at the monster Hippodrome theatre, was attended by over six thousand doctors and was an inspiring spectacle. The address of welcome was delivered by Major Mitchell and the principal speech was made by Colonel Theodore Roosevelt, who said that the army which the United States must raise will need the services of forty thousand physicians and surgeons. The American association pledged its loyalty to the government and its members will make all required sacrifices to meet the obligations resting upon the profession.—Lexington Leader.
